

# Air Dry Bakers Clay

- 2 cups of Baking Soda.
- 1 cup of cornflour.
- 1 1/4 cups of water.
- And help from an adult.

2

Place all ingredients into a saucepan on a medium heat.

Stir the mixture until it gets thicker and thicker (imagine a saucepan full of mashed potatoes)

When it has cooled a little and you can handle it, roll it in a ball and wrap it in a damp tea towel.

Let it cool for 15 minutes.

3

When the clay is ready,  
unwrap it and give it a good  
knead.

When you have finished  
your Sculpture, let it dry  
slowly.

When dry you can paint it  
or decorate with Sharpies!
