

HALLOWEEN CAT DOOR HANGER

WHAT YOU WILL NEED:

- Pre-made foam wreath OR thick cardboard
- Black paint / black felt / black faux fur / black wool
- 2 x Black pipe cleaners
- Scissors
- Glue

INSTRUCTIONS:

STEP 1

If you don't have a pre-made wreath, cut your thick cardboard into a circular wreath with a hole in the middle. This can be a bit tricky so ask an adult for help!

Now, cover your wreath in black materials to look like fur!

STEP 2

Next, add your ears. Cut triangles from card or felt and attach to the back of your wreath using glue or double-sided tape.

STEP 3

At the top of the wreath, just under the ears, it is now time to add creepy cat eyes! Draw these onto card using felt tips and then cut out and stick on.

STEP 4

Use pipe cleaners for whiskers by attaching to either side of the wreath.

STEP 5

Finally, attach some string or ribbon to top of the back so that you can hang your Spooky Cat Wreath!!
