

SPOOKY MUMMY JAM JAR

WHAT YOU WILL NEED:

- Any kind of glass jar
- Black paint
- Paint brush
- Masking tape or paper first aid tape or even a thin bandage
- Googly Eyes
- Glue

INSTRUCTIONS:

STEP 1

Protect your working area with some newspaper or a wipe-clean cloth.

Paint the outside of your jar in black paint. You will have to be patient as some paint can take a long time to dry and may require more than one coat!

STEP 2

Once your paint is completely dry, glue on a pair of googly eyes (you can also just use paper circles with eyes drawn on).

STEP 3

Stick your bandage or tape to the back and bottom of the jar and begin wrapping around overlapping the tape around the jar to look like a mummy.

All done! You have made a Spooky Mummy Jar that could be filled with treats or used as a decoration by popping a tea-light inside to make it glow!
